Our 37th Annual Landscape Management Seminar is to be held this Wednesday, February 27, 2019, at Hodels, beginning at 7:30 am. Visiting speakers include Maggie Reiter of UC Cooperative Extension, Fresno, who will speak about IPM for weeds in turfgrass systems. We'll have a noon demonstration, updates on laws and regulations including a representative from DPR, and updates on the Asian citrus psyllid and and citrus yellow-shoot disease, plus a talk on fungicides and fungi. I'll be speaking about roses and the discovery of rose rosette disease in Bakersfield. Abate-a-Weed is cooperating as a sponsor for this meeting and is handling registration. There are eight hours of PCA credit available for this meeting, including two hours of laws.
